## Notes to the Condensed Consolidated Financial Statements

For the three months ended March 31, 2022 and 2021

(in thousands of U.S. dollars, except share and per share data)

---

### 1. GENERAL INFORMATION

Excellon Resources Inc. (the “Company” or “Excellon”) is a silver mining and exploration company listed on the Toronto Stock Exchange (the “TSX”), NYSE American LLC Exchange (the “NYSE American”) under the symbol EXN and the Frankfurt Stock Exchange under the symbol E4X2. Excellon’s vision is to create wealth by realizing strategic opportunities through discipline and innovation for the benefit of employees, communities and shareholders. The Company is advancing a precious metals growth pipeline that includes: Platosa, a high-grade silver mine producing in Mexico since 2005; Kilgore, an advanced gold exploration project in Idaho with strong economics and significant growth and discovery potential; and an option on Silver City, a high-grade epithermal silver district in Saxony, Germany with 750 years of mining history and no modern exploration. The Company also aims to continue capitalizing on current market conditions by acquiring undervalued projects.

Excellon is domiciled in Canada and incorporated under the laws of the province of Ontario. The address of its registered office is 10 King Street East, Suite 200, Toronto, Ontario, M5C 1C3, Canada.

These consolidated financial statements were approved by the Board of Directors on May 13, 2022.

### 2. BASIS OF PRESENTATION AND GOING CONCERN

#### a) *Statement of compliance and going concern*

The Company prepares its condensed consolidated financial statements in accordance with International Accounting Standard 34, *Interim Financial Reporting*, as issued by the International Accounting Standards Board (“IASB”). Accordingly, certain information and note disclosures normally included in the annual financial statements prepared in accordance with International Financial Reporting Standards (IFRS), as issued by the IASB, have been omitted or condensed. These condensed consolidated financial statements should be read in conjunction with the annual consolidated financial statements for the year ended December 31, 2021.

On January 5, 2022, the Company announced that it was assessing the economic viability of mining at Platosa at achievable dewatering rates and with acceptable capital expenditures, beyond mid-2022. The mineral resources remaining beyond mid-2022 steepen significantly, with fewer vertical-tonnes-per-metre than historically encountered. Underground and surface drilling continued throughout Q1 2022; however, based on the recent drilling results and consideration of current and expected economic factors, the Company expects to wind down operations at Platosa during Q3 2022.

In addition, the Company has incurred losses from operations, has a shareholders’ deficit of \$6,735, and negative working capital of \$21,303 (including the Provision for litigation of \$22,193 (Note 9)) as of March 31, 2022. Operating cash flows from the Platosa mine are projected to cease after the wind down of its operations in Q3 2022 and therefore the Company must utilize its current cash reserves, and other financing transactions to maintain its working capital requirements and planned corporate expenditures, as well as to fund exploration activities.

As indicated in Note 9, the Company is also party to a legal claim (the “Judgment”) against San Pedro Resources SA de CV (“San Pedro”). The Judgment is solely against San Pedro as defendant and the Company believes that the Plaintiff has no recourse against the Company’s other assets in Mexico (including Platosa),

# Excellon Resources Inc.

## Notes to the Condensed Consolidated Financial Statements

For the three months ended March 31, 2022 and 2021

(in thousands of U.S. dollars, except share and per share data)

---

Idaho, Saxony or Canada. San Pedro continues to operate in the ordinary course and there is currently no impact to the operation of the Company's business.

The Company's assets in Mexico, including those held in San Pedro, are security for the Debentures (Note 7). The Company does not consider the Judgment and actions taken by the Plaintiff to date in connection with enforcing the Judgment to constitute an event of default or default under the trust indenture governing the outstanding Debentures (the "Indenture"). An event of default under the Indenture, if not cured or waived, could result in the acceleration of all the Company's debt under the Debentures and could materially and adversely affect the Company's future operations, cash flows, earnings, results of operations, financial condition and the economic viability of its projects.

On March 7, 2022 the Company reported that the Sindicato Nacional Minero Metalúrgico (the "Platosa Union") commenced a labour action at the Platosa Mine in Durango, Mexico. On April 1, 2022 the labour action was resolved.

The Company is considering various financing, corporate development opportunities and strategic alternatives that may include acquisitions, divestitures, mergers or spin-offs of the Company's or third parties' assets, as applicable.

These conditions indicate the existence of material uncertainties that cast substantial doubt on the Company's ability to realize its assets and discharge its liabilities in the normal course of business and, accordingly, the appropriateness of the use of accounting principles applicable to a going concern. The Company's ability to continue as a going concern is dependent on its ability to repay or refinance its non-current Debentures, obtain the necessary financing to advance its exploration projects and meet its ongoing corporate overhead costs. Although the Company has been successful in obtaining debt or equity financing in the past, there is no assurance that it will be able to do so in the future or that such arrangements will be on terms advantageous to the Company.

These condensed consolidated financial statements are prepared on a going concern basis which assumes that the Company will continue for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business. Accordingly, these condensed consolidated financial statements do not include adjustments to the recoverability and classification of recorded asset and liabilities and related expenses that might be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and liquidate its liabilities in other than the normal course of business at amounts different from those in the accompanying condensed consolidated financial statements. Such adjustments could be material.

*b) Summary of significant accounting policies, judgments, and estimates*

These condensed consolidated financial statements have been prepared using the same accounting policies, methods of computation, judgments and estimates as the annual consolidated financial statements of the Company as at and for the year ended December 31, 2021.

# Excellon Resources Inc.

## Notes to the Condensed Consolidated Financial Statements

For the three months ended March 31, 2022 and 2021

(in thousands of U.S. dollars, except share and per share data)

- (1) Unrealized foreign exchange losses on translation of Mexican peso assets at the period-end exchange rate.
- (2) On January 5, 2022, the Company announced that it was assessing the economic viability of mining at Platosa at achievable dewatering rates and with acceptable capital expenditures, beyond mid-2022. The mineral resources remaining beyond mid-2022 steepen significantly, with fewer vertical-tonnes-per-metre than historically encountered. Based on the recent drilling results and consideration of current and expected economic factors, the Company expects to wind down operations at Platosa during Q3 2022.

At December 31, 2021 and considering results from exploration and drilling assessments in Q4 2021 and Q1 2022, the Company performed an impairment test on the Platosa Mine CGU and Miguel Auza processing facility CGU. The recoverable amounts were calculated using the value-in-use method and estimated based on future cash flows. Key assumptions included future commodity prices, production based on current estimates of recoverable resources, and operating costs. In addition, the estimated residual value of Platosa's property, plant and equipment required significant judgement. No discount rate was applied given the short-term nature of the cash flows. The estimated recoverable amount for the Platosa CGU and Miguel Auza CGU was \$7,264 and \$1,338 respectively. Consequently, an impairment loss of \$15,403 was recognized as at December 31, 2021 (\$14,293 on the Platosa Mine, \$1,110 on Miguel Auza). The recoverable amount and impairment was most sensitive to the future commodity price assumption – a 10% change in commodity prices would result in a \$2,133 change in the recoverable amount and impairment. A 10% change in the residual value of Platosa's property, plant and equipment would result in a \$292 change in the recoverable amount and impairment.

In Q3 2021, the Company had recorded an impairment loss of \$752 on the Miguel Auza CGU reflecting the impact of the Judgment against San Pedro (refer to Note 9).

### 5. MINERAL RIGHTS

	127	1,066	13,756	5,189	20,138

- (1) On September 24, 2019 the Company signed an option agreement (the “Globex Agreement”) with Globex Mining Enterprises Inc. (“Globex”) to acquire a 100% interest in the Bräunsdorf exploration license for the Silver City Project in Saxony, Germany, pursuant to which the Company agreed to pay total aggregate consideration of C\$500 in cash and issue common shares valued at C\$1,600 over a period of three years. Upon completion of the payments and common share issuances the Company will grant Globex a gross metals royalty of 3% for precious metals and 2.5% for other metals, both of which may be reduced by 1% upon a payment of \$1,500. Additional one-time payments of C\$300 and C\$700 will be made by the Company following any future announcement of a maiden resource on the property and upon achievement of commercial production from the project, respectively. The Company has made the following earn-in payments to date:

Option payment date	Number of shares issued	Contractual value of shares issued	Cash payment made	Total – addition to mineral rights
September 24, 2019	45,367	C\$225	C\$100	\$245
September 21, 2020	65,657	C\$325	C\$100	\$317
September 22, 2021	232,240	C\$425	C\$100	\$384

The Company has the option to issue shares to the value of C\$625 and a cash payment of C\$200 to complete the acquisition of the Bräunsdorf exploration license before September 23, 2022.

- (2) On April 22, 2020, the Company acquired 100% ownership of the Oakley Project in Cassia County, Idaho as part of the Otis acquisition.

On February 26, 2020, Otis entered into a definitive option agreement with Centerra Gold Inc. (“Centerra”) whereby Centerra can earn up to a 70% interest in the Oakley Project in exchange for total exploration expenditures of \$7,500 and cash payments to the Company of \$550 over a six-year period. Excellon was Project Manager and earned 10% of the approved exploration expenditures for technical oversight and project management until November 30, 2021. Centerra now manages the Oakley Project directly.

In Q1 2021, the Company received a payment of \$75 from Centerra under the earn-in agreement. In accordance with the Company’s farm-out accounting policy this amount was credited to the Oakley Project. In Q1 2022, the Company received a payment of \$100 from Centerra under the earn-in agreement.

- (3) Refer to Note 4 – mineral rights related to the Platosa Mine were included in the Platosa CGU tested for impairment at December 31, 2021. An impairment of \$385 was recorded.

Non-current	-	1,898	1,898

(1) Post-retirement benefits: Under Mexican labour law, the Company provides post-retirement indemnities and severance benefits to its employees terminated under certain circumstances. Key assumptions used by the independent 3<sup>rd</sup> party actuary in the above estimate include an annual discount rate of 7.00% (December 31, 2021 – 7.00%), employee turnover rate of 4% (December 31, 2021 – 4%), annual salary rate increase of 3.75% (December 31, 2021 – 3.75%) and minimum wage increase rate of 22% (December 31, 2021 – 22%), and the life of mine plan to mid-2022 (December 31, 2021 – to mid-2022).

(2) Rehabilitation provision: Key financial assumptions used in the above estimate include independent 3<sup>rd</sup> party cost reports, an annual discount rate of 6.68% for Platosa and 7.19% for Miguel Auza (December 31, 2021 – 6.68% for Platosa and 7.19% for Miguel Auza), Mexican target inflation rates and the anticipated commencement of rehabilitation work (Platosa – 2023 and Miguel Auza – 2024). The total undiscounted amount of estimated cash flows required to settle the Company's obligations is \$2.0 million of which \$1.0 million relates to the Platosa mine and \$1.0 million relates to the Miguel Auza processing facility.

### 7. CONVERTIBLE DEBENTURES

On July 30, 2020, the Company closed a private placement (the "Financing") of secured convertible debentures (the "Debentures") for total proceeds of C\$17.91 million.

The Debentures have a term of 36 months and are convertible into common shares of the Company prior to maturity at a conversion price of C\$5.30 per common share. The Debentures bear interest at an annual rate of 5.75%, payable in cash semi-annually. Interest on the Debentures may alternatively be paid in common shares

# Excellon Resources Inc.

## Notes to the Condensed Consolidated Financial Statements

For the three months ended March 31, 2022 and 2021

(in thousands of U.S. dollars, except share and per share data)

of the Company at the Company's option based on the 10-day volume-weighted average price ("VWAP") of the common shares prior to the payment date and an effective annual rate of 10%. The Debentures are secured against the Company's assets in Mexico (refer to Note 2).

On or after July 30, 2022 and prior to maturity, the Company may accelerate the conversion of the entire issuance of Debentures, provided that the 20-day VWAP of the common shares on or after such 24-month anniversary is equal to or greater than C\$12.50.

The purchasers of the Debentures were also issued 1,006,542 common share purchase warrants, with an exercise price of C\$5.75 and an expiry date of July 30, 2023. In connection with the Financing, the Company granted 136,887 common share purchase warrants (the "Broker Warrants"), with an exercise price of C\$5.75 and an expiry date of July 30, 2023.

Net proceeds from the Debentures were C\$17.1 million (\$12.8 million) after cash transaction costs of C\$768 (\$572). The net proceeds were allocated between debt and equity components. On initial recognition, the fair value of the debt of C\$8,459 (\$6,298) was estimated using a coupled Black-Scholes model based on an expected term of 36 months and a coupon rate of 5.75%. The residual portion of C\$6,382 (\$4,751) represented the value of the conversion option and other features of the Debentures, and was recognized in equity net of a deferred tax recovery of C\$2,301 (\$1,713) related to a taxable temporary difference on this equity component.

The debt component is recorded at amortized cost and is accreted to the principal amount over the term of the Debentures. The Company elected to pay the December 31, 2020, June 30, 2021 and December 31, 2021 interest payments in common shares valued at C\$754 (\$588), C\$888 (\$727) and C\$903 (\$706), respectively. The Company recorded interest expense of C\$1,041 (\$822) for the three months ended March 31, 2022.

Share-based payment expense is recognized over the vesting period of the grant with the corresponding equity impact recorded in contributed surplus. Share-based payment expense comprises the following:

	Three months ended	
	March 31 2022	March 31 2021
	\$	\$
Stock options	38	203
RSU	115	141
DSU	35	421
	188	765

## 9. PROVISION FOR LITIGATION

A subsidiary of the Company is party to an action by a claimant in respect of damages under a property agreement regarding the La Antigua mineral concession ("La Antigua"), a non-material mineral concession within the Evolución Project held by a subsidiary of the Company. La Antigua is subject to an exploration and exploitation agreement with a purchase option (the "Antigua Agreement") between San Pedro Resources SA de CV ("San Pedro", now a subsidiary of Excellon) and the owner (the "Plaintiff") that provides, among other things, for a minimum payment of \$2.5 plus value added tax per month and the payment of a 3% NSR royalty. Pursuant

## Notes to the Condensed Consolidated Financial Statements

For the three months ended March 31, 2022 and 2021

(in thousands of U.S. dollars, except share and per share data)

---

to the Antigua Agreement, San Pedro had the right to purchase absolute title to La Antigua including the NSR royalty upon payment of \$500. San Pedro was under no contractual obligation to put the mine into production and has not done so. The Plaintiff was initially awarded damages of \$700 in the court of first instance in Torreón, Coahuila. Both San Pedro and the Plaintiff appealed the decision to the Second District State Court in the Judicial District of Torreón. That Court confirmed the initial decision but, subsequently, pursuant to an order obtained by the Plaintiff, granted the Plaintiff an award of \$22,175 (the "Judgment"), which in the view of management is multiple times greater than any income the applicable NSR royalty could produce even in the event of commercial production. San Pedro's appeal of this decision to the federal courts of Mexico was dismissed on July 1, 2021, a decision that was formally communicated to the Company in August 2021, and as the Judgment is not subject to further legal appeal in Mexico, the Company recorded a Provision for litigation of \$22,175 in Q3, 2021.

The Judgment is solely against San Pedro as defendant and the Company believes that the Plaintiff has no recourse against the Company's other assets in Mexico (including Platosa), Idaho, Saxony or Canada. San Pedro is a wholly-owned, indirect subsidiary of the Company that holds the Miguel Auza processing facility and the original Miguel Auza mineral concessions, including the Evolución mineral resource. The book value of San Pedro's assets included in the condensed consolidated Statement of Financial Position (Note 4) is \$2.5 million, including plant, property and equipment of \$0.8 million, VAT recoverable of \$1.3 million and materials, supplies and other of \$0.4 million. The Platosa Mine is owned and operated by a separate subsidiary.

The Company continues to pursue avenues through our labour, community and government relationships and is investigating remedies under international law. In the interim, San Pedro continues to operate in the ordinary course and there is currently no impact to the operation of the Company's business. In Q1 2022, the Plaintiff registered the Judgment against the real property owned by San Pedro. The Company is pursuing legal remedies through its counsel in Mexico. This proceeding does not currently impact the Company's use of the land, plant or mineral concessions. As of the date of approval of these financial statements San Pedro has not received any notice that the Plaintiff has initiated any insolvency proceedings that could result in San Pedro losing control of the toll milling operations.

(in thousands of U.S. dollars, except share and per share data)

### 10. REVENUE

Under the terms of the Company's concentrate sales contracts, lead-silver and zinc-silver concentrates are sold on a provisional pricing basis whereby sales are recognized at prevailing metal prices when the revenue recognition criteria have been met, namely when title and the risks and rewards of ownership have transferred to the customer. Final pricing of each delivery is not determined until one to four months post-delivery. The price recorded at the time of sale may differ from the actual final price received from the customer due to changes in market prices for metals. The price volatility is considered an embedded derivative in trade receivables. The embedded derivative is recorded at fair value by mark-to-market adjustments at each reporting period until settlement occurs, with the changes in fair value recorded in revenue.

The Company recognized the following amounts related to revenue:

	Three months ended	
	March 31 2022	March 31 2021
	\$	\$
Concentrate revenue from contracts with customers	7,757	9,844
Provisional pricing adjustments on concentrate sales	739	(63)
<b>Total revenue</b>	<b>8,496</b>	<b>9,781</b>

The following table sets out the disaggregation of revenue by metal:

	Three months ended	
	March 31 2022	March 31 2021
	\$	\$
Concentrate revenue:		
Silver	4,498	6,601
Lead	1,138	1,313
Zinc	2,860	1,867
<b>Total revenue</b>	<b>8,496</b>	<b>9,781</b>

The Company has offtake agreements with Trafigura Mexico, S.A. de C.V. ("Trafigura"), a subsidiary within the Trafigura group of companies. Due to the availability of alternative processing and commercialization options for its concentrate, the Company believes it would suffer no material adverse effect if it lost the services of Trafigura.

### 11. EXPENSES BY NATURE

(a) Cost of sales consist of the following:

	Three months ended	
	March 31 2022	March 31 2021
	\$	\$
Direct mining and milling costs <sup>(1)</sup>	5,442	6,456
Changes in inventories <sup>(2)</sup>	193	(303)
Depletion and amortization	2,278	1,790
<b>Cost of sales</b>	<b>7,913</b>	<b>7,943</b>

(1) Direct mining and milling costs include personnel, general and administrative, fuel, electricity, maintenance and repair costs as well as operating supplies, external consulting and transport fees.

(2) Changes in inventories reflect the net cost of ore and concentrate (i) sold during the current period but produced in a previous period (an addition to direct mining and milling costs) or (ii) produced but not sold in the current period (a deduction from direct mining and milling costs).

(b) Administrative expenses consist of the following:

	Three months ended	
	March 31 2022	March 31 2021
	\$	\$
Office and overhead	561	606
Salaries and wages	371	712
Corporate development and legal	60	68
Public company costs	33	57
<b>Administrative expenses</b>	<b>1,025</b>	<b>1,443</b>

(c) Other (income) expenses consist of the following:

	Three months ended	
	March 31 2022	March 31 2021
	\$	\$
Fair value loss on marketable securities	43	469
Fair value loss on purchase warrants	17	74
Unrealized foreign exchange (gain) loss	(515)	132
Realized foreign exchange gain	(23)	(63)
Interest and other expenses	78	48
Insurance proceeds received	(592)	-
Management fee income (Note 5)	-	(9)
<b>Other (income) expenses</b>	<b>(992)</b>	<b>651</b>

### 12. EXPLORATION AND HOLDING EXPENSES

Exploration and holding expenses were incurred on the following projects:

	Three months ended	
	March 31 2022	March 31 2021
	\$	\$
Platosa property (Mexico) - exploration work <sup>(1)</sup>	231	369
- holding costs	51	49
Evolución (Mexico) - exploration work	40	90
- holding costs	85	72
Silver City (Germany) - exploration work	478	204
- holding costs <sup>(2)</sup>	-	-
Kilgore (USA) - exploration work	231	289
- holding costs	-	-
<b>Exploration and holding expenses</b>	<b>1,116</b>	<b>1,073</b>

(1) Platosa property exploration excludes underground drilling at the Platosa Mine which is capitalized to Property, plant and equipment (Note 4).

(2) There are no annual fees associated with exploration licenses in Saxony, Germany. See Note 5 for capitalized earn-in payments under the Globex Agreement.

### 13. FINANCE EXPENSES

Finance expenses consist of the following:

	Three months ended	
	March 31 2022	March 31 2021
	\$	\$
Interest expense - Debentures <sup>(1)</sup>	822	648
Interest expense - other	31	30
Rehabilitation provision - accretion	31	18
Post-retirement benefits - accretion <sup>(2)</sup>	31	8
Unrealized loss on currency hedges	-	21
<b>Finance expenses</b>	<b>915</b>	<b>725</b>

(1) The Debentures are recorded at amortized cost and accreted to the principal amount over the term of the Debentures (Note 7). For the three months ended March 31, 2022, \$200 (March 31, 2021 – \$200) relates to the coupon interest expense, and \$622 (March 31, 2022 – \$448) relates to accretion using the effective interest rate method.

(2) Reflects the discounting of post-retirement benefit liabilities. The post-retirement benefit accretion presented in Note 6 includes current service cost accretion of \$156 (December 31, 2021 – \$199) recorded in cost of sales.

---

### 14. FINANCIAL INSTRUMENTS

#### *Fair Values of non-derivative financial instruments*

All financial assets and financial liabilities, other than derivatives, are initially recognized at the fair value of consideration paid or received, net of transaction costs, as appropriate, and are subsequently carried at fair value or amortized cost. At March 31, 2022, the carrying amounts of trade and other payables and other current assets are considered to be reasonable approximations of their respective fair values due to the short-term nature of these instruments. The methods and assumptions used in estimating the fair value of other financial assets and liabilities are as follows:

#### *Embedded derivatives – provisional pricing*

Revenues from the sale of metals produced are based on provisional prices at the time of shipment. Variations between the price recorded at the time of sale and the actual final price received from the customer are caused by changes in market prices for metals sold and final settlement weights and assays, which result in an embedded derivative in trade receivables. The embedded derivative is recorded at fair value each reporting period until settlement occurs, with the changes in fair value recorded to revenues.

#### *Fair Value Hierarchy*

The three levels of the fair value hierarchy are as follows:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data

		March 31	December 31
	Fair value	2022	2021
	hierarchy	\$	\$
<b>Financial assets</b>			
Fair value through profit and loss			
Marketable securities	Level 1	142	407
Warrants	Level 2	31	47
Trade receivables from provisionally priced sales	Level 2	480	326
		653	780

There were no transfers between levels 1, 2 or 3 during the three months ended March 31, 2022.

#### *Valuation techniques and inputs used to determine fair values include:*

- Marketable securities – the use of quoted market prices
- Warrants – based on a Black-Scholes model which uses quoted observable inputs
- Trade receivables from provisionally priced sales – key inputs are payable metal and future metal prices, marked-to-market based on a quoted forward price and final settlement weights and assays
